

First United Methodist Church
Laurel, Maryland

Inclement Weather Policy

First United Methodist Church of Laurel (our entire facility, including non-church activities) will follow the Bowie State University policy for Inclement Weather for both day and evening activity "closures". We will post the closures on our website, through e-mail, on social media, and on the church phone system. You can also listen to the channels listed below for closing information.

For Worship Services, Weddings, and Funerals, every attempt will be made to open the facility. Under very severe conditions, we will communicate closure of these types of events in the same process as described in the previous paragraph. If this occurs, please help spread the word.

Under all circumstances, please consider your personal situation (local weather conditions, mode of transportation, distance from church, etc.) before you attempt to come to church. Your safety is our primary concern.
